Re: COVID-19 Essential Business Support Notification

Great Lakes Power Products and its affiliate North Atlantic Power Products are proud to serve several Critical Infrastructure Sectors defined by the Cybersecurity and Infrastructure Security Agency (CISA) as directed by the Department of Homeland Security.

Each one of our 14 branch locations are open for business and are committed to providing our customers with the same exceptional service they've come to know.

With the same level of commitment, we are staying in touch with our key suppliers to ensure that we have a steady stream of products to support the needs of our customers and will attempt to limit any interruption in our supply chain as best as possible.

As we navigate through these trying times, we are taking every precaution to ensure the health, safety and wellness of our employees our suppliers and our customers.

Each day brings new challenges as the world combats this pandemic. Know that our shareholders, our management team and our employees are prepared to answer this challenge in every way possible to best serve our customers.

Sincerely,

Richard J. Pennza
President and CEO
